

# The Ave, a People Street

◀ *I want to see The Ave become a pedestrian-priority street.*

## WANT TO SEE THE FUTURE?

Consistently the most popular community priority, desired for decades, is the transformation of The Ave into a pedestrian-priority shopping and entertainment destination to rival those of Europe. Addressing the 5-acre deficit of public open space for our dense urban center, this people street will attract visitors and neighbors alike to enjoy the following benefits:

- *Make access to public right of way equitable across race and class.*
- *Encourage use of public right of way as shared spaces for activation.*
- *Promote public space for social interaction to build more resilient, connected, and compassionate communities.*
- *Keep the U District Unique as an urban center to experience.*

▶ *See the future of The Ave through virtual reality.*

*Virtual reality vision of a future version of The Ave, redesigned for people.*
